B. SUMMARY AND INTERPRETATION OF THE TABLE

o **SEMESTER 1 & 2**

- In semester 1, 2 & 3, **ALL** students will report for Blended mode of lectures (Face-to-Face & Online). Part-time students will **report within the same period** but for online mode of learning while out of university premises and face-to-face for practicals.
- Main campus will have two sessions (1 & 2) while Town Campus will have three sessions (1, 2 & 3).
- All Part-time students will only come for Face-to-Face sessions during reporting, orientation (use of online platform during lectures), practical sessions and end-semester examinations (scheduled during mid-term and holidays as per the secondary & post-secondary academic calendar for the years 2022 – 2023).

C. BENEFITS OF THIS ACADEMIC CALENDAR PLAN

- **Academic calendar to normalize:** All groups will be able to complete semester 1 and semester 2 for 2022-2023 academic year by end of April, 2023 (Main Campus) and by end of August, 2023 (Town campus). Also, all administrative and academic operations will resume normalcy.
- **Timely release of provisional results:** The plan will ensure that all students receive their results. Therefore, all students proceeding to the next class, those with repeat cases as well as those with discontinuation will be informed early enough to streamline all academic records by administrative staff (HODs and Deans).
- **Increased fee payment:** All students will be expected to report in the ERP and pay fees as they begin their lectures.
- **Effective use of online learning platform through ODeL Directorate:** The plan will ensure active involvement of the directorate especially for the Part-time students. This will attract more students on job placement and ensure improvement and update on necessary online software and applications.
